

# META ARABS

HOW TO

METAMASK

---

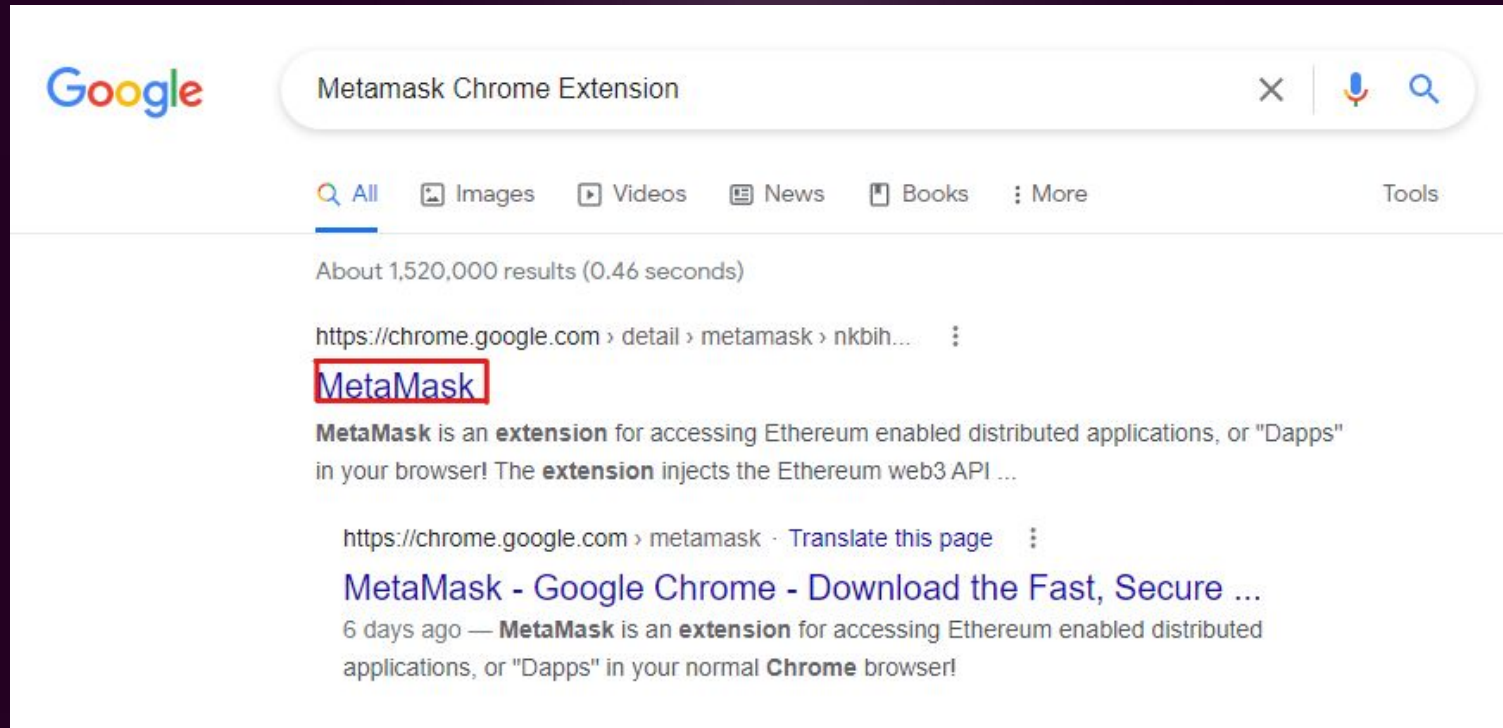

**In order to mint or purchase an NFT, you need a wallet that can interact with Ethereum applications, in this case, a MetaMask wallet.**

**Don't know how to set it up? Don't worry, follow our step by step tutorial.**

# Step 1:

The image shows a screenshot of a Google search page. The search bar at the top contains the text "Metamask Chrome Extension". Below the search bar, there are navigation links for "All", "Images", "Videos", "News", "Books", and "More". The search results show "About 1,520,000 results (0.46 seconds)". The first result is titled "MetaMask" and is highlighted with a red box. Below the title, there is a description: "MetaMask is an extension for accessing Ethereum enabled distributed applications, or 'Dapps' in your browser! The extension injects the Ethereum web3 API ...". The second result is titled "MetaMask - Google Chrome - Download the Fast, Secure ..." and is dated "6 days ago".

**MetaMask - Google Chrome - Download the Fast, Secure ...**

6 days ago — **MetaMask** is an **extension** for accessing Ethereum enabled distributed applications, or "Dapps" in your normal **Chrome** browser!

Go to Google → Metamask Chrome Extension

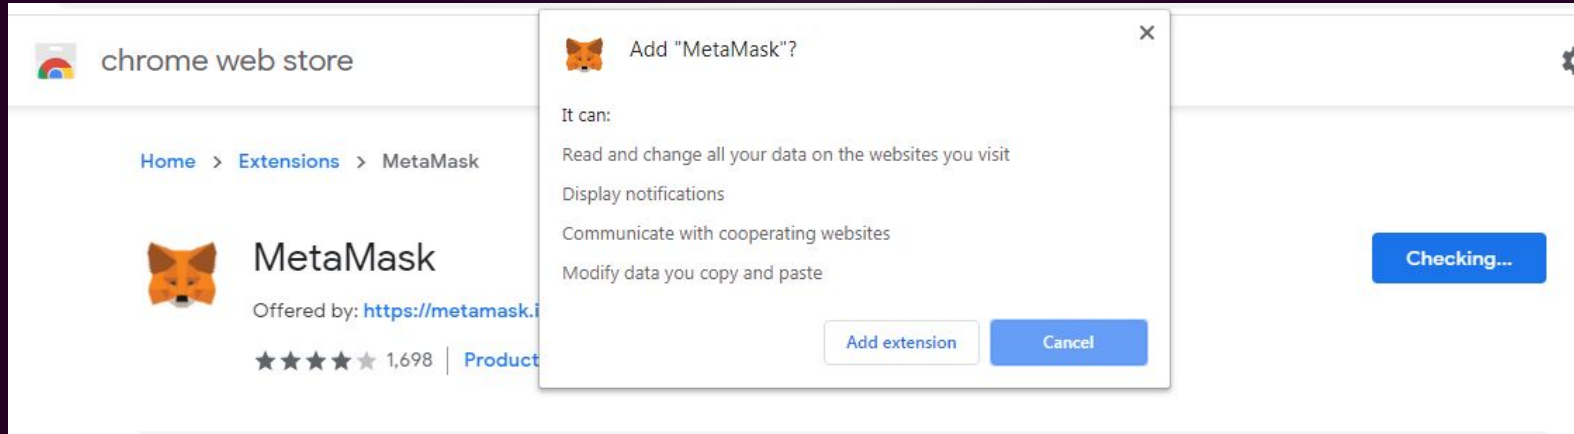

# Step 2:

The screenshot shows the Chrome Web Store page for the MetaMask extension. At the top, the browser address bar displays "chrome web store" and the user's email "info@seedon.io". The breadcrumb navigation shows "Home > Extensions > MetaMask". The extension's logo, a stylized orange fox head, is on the left. To its right, the name "MetaMask" is displayed in a large font, followed by "Offered by: <https://metamask.io>". Below this, there are five stars, a rating of "2,203", the category "Productivity", and "9,000,000+ users". A green arrow points from the right towards a blue "Add to Chrome" button, which is highlighted with a green rectangular border. Below the extension details, there are tabs for "Overview", "Privacy practices", "Reviews", "Support", and "Related". At the bottom of the page, a preview image shows a browser window with the Uniswap Exchange interface, displaying a swap form with the amount "0.0203624" and a gas fee of "0.000528".

Click "Add to Chrome"

## Step 3:

Click "Add extension"

## Step 4:

MetaMask | chrome-extension://nkbihfbeogaeaoehlefnkodbefgpgknn/home.html#initialize/create-password

### Create Password

New Password (min 8 chars)

Confirm Password

**CREATE**

Import with seed phrase

● ○ ○

Create an account and password.

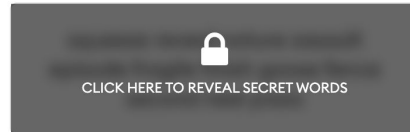

# Step 5:

## Secret Backup Phrase

Your secret backup phrase makes it easy to back up and restore your account.

**WARNING:** Never disclose your backup phrase. Anyone with this phrase can take your Ether forever.

[Remind me later](#)

[Next](#)

Tips:

Store this phrase in a password manager like 1Password.

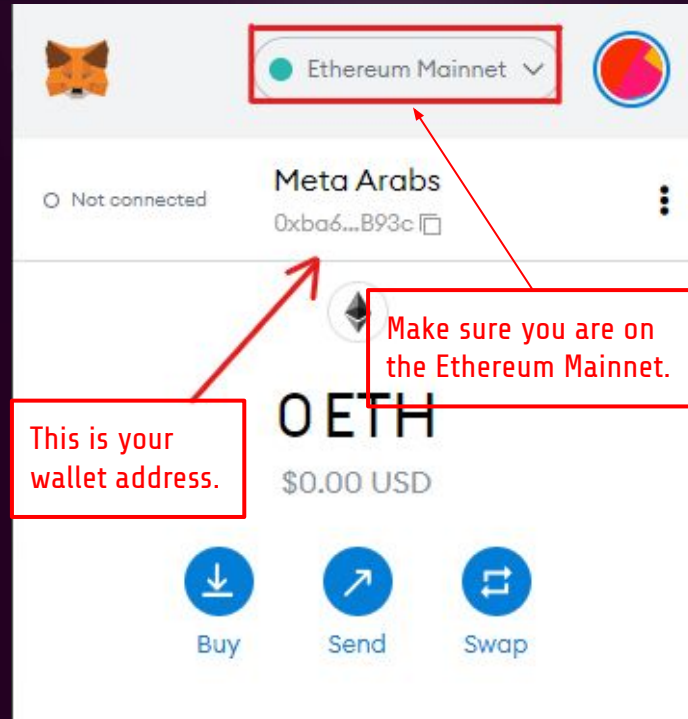

Write this phrase on a piece of paper and store in a secure location. If you want even more security, write it down on multiple pieces of paper and store each in 2 - 3 different locations.

Memorize this phrase.

[Download this Secret Backup Phrase and keep it stored safely on an external encrypted hard drive or storage medium.](#)

Store your secret backup phrase somewhere safe.  
**DO NOT SHARE THIS WITH ANYONE!!**

## Step 6:

This is how you can get your address for whitelist, and to send ETH to your wallet.
